WORK EXPERIENCE

WIZELINE

Software Engineer

Guadalajara, México
2021 - Actual

Working as a consultant has made me more perceptive of the opportunities a project has to improve and how you can with your team to exploit them.

Fintech at WIZELINE

Software Engineer

Guadalajara, México
2023 - 2023

Working as the only FrontEnd engineer focused on optimizing the behavior and interactivity of a Web table.

- Improving the table loading passing from a 10-second load to only 1-second.
- Improving the interactions on the table work almost instantly comprising the previous 10 seconds waiting with every interaction.
- Leading the efforts to standardize the code to avoid repetitive types, duplicate functions, and misleading folder structure.

Fintech at WIZELINE

Software Engineer

Guadalajara, México
2021 - 2023

Working on an incremental migration of an old AngularJS App to a modern ReactJS approach. Leading the efforts to adopt a new design system.

- Implementing A/B testing and incremental UI releases with Optimizely.
- Using FullStory and Amplitude to track bugs.
- Implementing and leading the use of a new custom design system.
- Leading the efforts to slowly and incrementally restructure the code to make it more consistent.
- Working with RTL aiming for 70% coverage.
- Consuming REST API and also GraphQL.
- Leading the efforts to standardize the code to avoid repetitive types, duplicate functions, and misleading folder structure.

IBM
